Australian National University

Flexible Double Degree

Study two undergraduate degrees at the same time and graduate with two qualifications. Combine two degrees to pursue diverse interests — for example: Bachelor of Asian Studies/ Bachelor of Laws, or Bachelor of Arts/ Bachelor of Languages. These programs will take you less time than studying two undergraduate degrees separately. Having two areas of expertise means you will graduate with a distinct competitive advantage.

ANU has pioneered the Flexible Double Degree™ so you can satisfy your intellectual curiosity and tailor your studies to prepare for your dream career.

You can build your own combination of disciplines and study areas to suit both a career path and a personal passion.

A Bachelor of Arts degree can be combined with all other ANU undergraduate degrees.

There are internship opportunities available through the Australian National Internships Program (ANIP), which offers you the opportunity to go into a workplace and undertake a research project for which you will receive academic credit.

You will have a clear advantage when applying for jobs.

- It takes less time than studying two undergraduate degrees separately.
- You will have the same full-time workload as a student studying a single undergraduate degree.

How the Flexible Double Degree program works

Double degree: Arts, Sciences, Social Sciences and Business group — 4 year degree

You can combine the Bachelor of Arts degree with a number of different degrees within the Arts, Sciences, Social Sciences and Business Flexible Double Degree group. It will take approximately four years to complete a Flexible Double Degree in this group. **Below is an example of how you can combine 2 three-year degrees.**

Students must meet the entry requirements for both degrees.
