Transition activities undertaken and underway to assist students are:

* The Registrar’s Office has met with College Student Administration Staff to identify students who will be most affected by the changes, to print transcripts in preparation for advice sessions and to coordinate communication and advising activities;
* The Head of School has met with individual students and groups of students, and the CASS staff have been engaged in 1:1 advice sessions;
* Students who have not contacted CASS Student Administration staff for an advice session will be contacted to ensure that they engage in transition discussions; and
* The Deputy Vice-Chancellor Academic met with a key group of students on Thursday 10 May to gather their feedback on further improvements that the University might undertake in the management of transition. This has provided invaluable practical advice on improving transition processes.
